## Sample IELTS Academic TASK 1 Scoring 6

The graphs show that consumption of different energy sources which are oil, coal, gas, nuclear power and other renewable sources according to the year 2000 and 2006 in the UK and USA. These figures are based on out of %40.

From 2000 to 2006, the amount of coal and nuclear power consumption in the UK decreased by about five percentages. Similarly, the oil consumption raised by nearly two percentages. However, in contrast, the consumption of gas increased by approximately twenty percentages. It shows that people who lived in 2006 in the UK mostly consumed the gas as a source of energy.

On the other hand, the consumption of nuclear power and the other renewable sources fell by about two percentages in the USA. Also, the coal decreased by nearly ten percentages. In contrast, the gas consumption increased by about ten percentages and the oil consumption raised by approximately two percentages.

These features show that although the UK mostly used the gases as an energy source, in contrast, the USA generally consumed oil.

## Yorum ve IELTS puanlama

### Task Achievement 5

Grafikle ilgili en belirgin bilginin verildiği bir ifade (overview) verilmemiştir. Burada en göze çarpan şey UK'de ve USA'da benzin(oil), nükleer enerji (nuclear power) ve yenilenebilir enerji (renewable sources) tüketimi hemen hemen aynı kalırken kömür (coal) tüketimi önemli bir şekilde düşmüştür ve gaz (gas) tüketimi önemli ölçüde artmıştır.

Bu arada “dropped from 30% to 15%”, “rose from 10% to 401 gibi bazı verilerle bu söylenenlerin desteklenmesi de gereklidir.

### Coherence and Cohesion 6

Yazıda tutarlılığı sağlayan bazı ifadeler kullanılmış fakat yine de bazı kalıp ifadeler bu tutarlılığı bozuyor.

### Lexical Resource 6

Kullanılan kelimeler yeterlidir fakat daha fazla not almak için kelime çeşitliliğinin artırılması gerekli.

### Grammatical Range and Accuracy 6

Kullanılan gramer yapı çeşitliliği sınırlı tutulmuş.

**Approximate overall IELTS score: 6**
