1. **There is a small group of people who inherit a tendency to become alcoholic. -----.** This deficiency makes them very sensitive to alcohol and their bodies cannot break down the alcohol as efficiently as other people's bodies.
A) These people drink without becoming dependent on alcohol
B) They keep drinking without realizing that it can become a habit
C) Their bodies lack a particular set of chemicals
D) They tend to drink too much because they are unhappy or lonely

2. **The Japanese have three alphabets: Hiragana, Katakana and Kanji. The Hiragana alphabet is used to write Japanese words in syllables. The Katakana, which also consists of syllables, is used to write words taken from other languages. The Kanji is a system of symbols in which each symbol represents one object or idea. Since they use all three alphabets in everyday life, the Japanese -----.**
A) have to know how to read all three alphabets
B) have difficulty in learning all three alphabets
C) cannot remember the rarely-used symbols easily
D) read a lot in order to remember the symbols easily

3. **In the United States, about 10 million computers are thrown away every year. -----.** The computer industry and the government are working on ways to solve this problem. They have concluded that there must be changes in the way computers are built. They must be made in ways that will allow some of their parts to be recycled. These parts include the electronic parts, the glass screen of the monitor and parts of the printer.
A) When a computer stops working, one of three things can happen to it
B) A new company has started to recycle computer parts
C) At present, there are about 900 million to 1 billion computer users in the world
D) Because most unwanted computers are sent to a dump, they cause pollution

4. **In Egypt, hieroglyphs were used by priests and other religious people to write down religious texts such as prayers and stories about life after death. The Egyptians' use of hieroglyphs, however, was not limited to religious purposes. -----.**
A) The Egyptians did not use punctuation marks in religious texts written in hieroglyphs
B) Hieroglyphs were also used in recording historical events and even for decoration
C) The hieroglyphs were also used on the prayers carved on the tombstones of kings
D) Other ancient civilizations, too, used hieroglyphs in various religious texts

5. **Some English names for bodies of water derive from Greek words. -----.**
The name for the Arctic Ocean, for instance, comes from the Greek word for bear, arкто and the name for the Atlantic Ocean derives from Atlantides, who were sea nymphs. Interestingly, the word “ocean” itself comes from Oceanus, the oldest member of the mythological race, the Titans.
- A) Lakes, though, do not fall into this category
B) This is true especially in the case of oceans
C) They take their names from the Greek gods
D) The planets, however, are named after Roman gods
6. **When one is travelling by plane, the changes of pressure caused by an ascent may seriously damage the ears by causing the eardrum to burst or by leading to a very painful inner ear infection. -----.** **The air pressure outside the ear drops and the air inside it causes the drum swell outwards. If the difference in pressure becomes great, the drum will burst.**
- A) As one ascends, the change in the atmospheric pressure in the ears is felt strongly
B) Swallowing hard several times can relieve the pressure difference
C) One should know how to balance the air pressure in order to fly safely
D) Ear infections can have detrimental effects
